REASONS FOR AND BENEFITS OF THE ACQUISITION

The Group is principally engaged in hospital management and general hospital business in China. It focuses on expansions in regions with sizeable populations and attractive economic conditions. The Holdco receives management fees from the Hospital for its management and consultancy services, which will allow the Group to benefit from the business growth of the Hospital. The Hospital, a Class IIB hospital located in Zhejiang province, is in close proximity to the hospitals that the Group manages or operates. The Board believes the core strategic vision of the Hospital aligns with the Group's strategic and business interests in the mid- and long-term to expand its market presence in China and be committed to form a regional medical service centers, through strategic cooperation with hospitals and expansion by mergers and acquisitions. The Company believes that the Hospital has enormous growth potential as it has a large patient base and leading reputations in the area. The Hospital is expanding the scale of its services and operation and constructing a new

building to meet the increasing demand of medical services in the region. The new building will be put into operation in 2018 with a gross floor size of 1,500 square meters, which shall support the operations of two medical departments. The Acquisition could also expand the market presence of the Group's existing business, broaden its customer base, and increase the Group's market shares in China, as well as further improve the brand awareness of the Group in the industry.

In addition, the Acquisition also allows the Group and the Holdco to create a synergistic effect such as shared medical resources and supply chain efficiencies, which in turn strengthens Holdco's ability to expedite the implementation of the expansion plans of the Hospital and optimize the Hospital's operations. For instance, the advanced management system as well as procedures and policies currently implementing in the hospital managed by the Group are effective and efficient to streamline the daily operations of a hospital. Having shared the experience and resources of the Group, the Holdco will be able to develop the untapped growth potential of the Hospital. While the Hospital is experiencing expansion growth, it needs to manage the growth in a systematic and efficient manner. The Holdco has entered into the Hospital Management Framework Agreement with the Hospital effective from February 2, 2018 in relation to the provision of management and consultancy services to the Hospital by the Holdco. The Board believes this arrangement will allow the Hospital to undergo a smooth transition in becoming a strategic partner of the Group's medical platform without diverting the attention of the Hospital management. Pursuant to the Hospital Management Framework Agreement, the Holdco shall, among others, assist the Hospital in (i) establishing a modern management system, (ii) managing its daily operations including procurement and management of pharmaceuticals, medical consumables and medical devices; (iii) establishing a team of medical professionals; and (iv) refining the research and development function and human resources management of the Hospital. The Holdco will, in return for its management and consultancy services, receive management fees from the Hospital. The management fees shall be calculated based on a fixed percentage of the operating income of the Hospital for the relevant year. The Directors believe that the terms of the Acquisition are fair and reasonable, and that entering into the Equity Transfer Agreement is in the interests of the Shareholders as a whole.
